

DJ-Tech

2010 PRODUCT OVERVIEW

New Product information

Meet the most compact Family of USB DJ Controllers ever.
Introducing the new DJ-Tech 101 SERIES, powered by Kontrol DJ.

These USB powered, Compact line controllers are designed to make the most of you valuable studio or live space, and are small enough to take with you on any musical journey.
Place one, or why not a combination of 101 series in front of your laptop, rest one on your workstation, park one on a recording console- or anywhere else you need versatile and serious control over your DAW, Virtual instrument, effect of DJ software.

The family is composed of 4 models: CDJ-101, VTT-101, DJM-101 and MIX-101
CDJ-101 and VTT-101 are using the patented touch sensitive platter,
offering 2 different style of turntable deck style.

DJM-101 is the easiest way to bring traditional DJ mixer-style control to the world of computer Dj-ing and live performance.
With a single USB connection, you get Dedicated controls for volume, gain, EQ, PFL, Crossfaders and led meters.

Easy to use in a single workspace, control 2 decks with everything you need to mix cool. The unit is a class-compliant MIDI device under MAC OS X, Windows XP or Vista, so you'll never need extra drivers to make it interface with your favorite DJ applications, Soft synths or DAWs.

Included Deckadance LE for MAC/PC
