Mini **Deluxe**™
MD-20

Owner's Manual

Control Description

Top Panel Functions

A) INPUT – Plug your guitar in here.

B) VOLUME – Adjusts amplifier loudness.

C) TONE – Adjusts the tone and brightness of the guitar input channel. 12 is the brightest setting, becoming progressively less bright as the dial is rotated towards 1.

D) DRIVE – Adjusts the amount of distortion and sustain.

E) POWER – Switches the Amplifier ON or OFF.

F) POWER INDICATOR – Illuminates when the amplifier is ON.

Side Panel Functions

G) HEADPHONE JACK – Connection for headphones. Using this jack automatically disables the internal speakers.

H)  DC 9V – 9V DC power adapter connection. Only use a safety certified external power adapter that is rated properly for use with this product.
